- Developed a responsive website for the Portfolio of a person where other people like interviewers can see a list of projects, skills, testimonials, contact info
- **Technologies used:** HTML, CSS, Bootstrap

Countries Search

- Developed responsive countries search application which shows all countries and respective populations in the world. We can also search by specific country
- **Technologies used:** HTML, CSS, JS(event Listeners), REST API Calls, Bootstrap

Chatbot

- Developed a mini Chatbot Application which initially wishes user and responds to a user if user input matches to list of answers that chatbot maintains
- **Technologies used:** HTML, CSS, JS, Bootstrap

Bookmark Maker

- Developed bookmark maker where user can add a list of websites with custom names and can visit bookmarked website later by clicking on the specific website
- **Technologies used:** HTML, CSS, JS, Bootstrap

Wikipedia Search Application([Link](#))

- Developed custom Wikipedia search application where users can search and view curated results and can see detailed explanations in Wikipedia by clicking on the specific result
- **Technologies used:** HTML, CSS(Box Model, Flex Properties), JS, REST API Calls, Bootstrap

Typing Speed Test

- Developed an application that measuring time he took to complete a given paragraph
- **Technologies used:** HTML, CSS, JS, REST API Calls, Bootstrap

Online Book Store (Book Search)**

- Developed online bookstore which shows popular books for given words, a user also can limit the number of books he would like to see
- **Technologies used:** HTML, CSS, JS, REST API Calls, Bootstrap

React JS Fundamentals

Portfolio

- Developed a responsive web application for Portfolio where other people like interviewers can see about, education, list of projects, skills, contact info of a person
- **Technologies used:** CSS, Bootstrap, React.js

Blog List

- Developed simple blog list application where user can see list of blogs in user profile section
- **Technologies used:** React.js, REST API Calls, CSS, Bootstrap

Cryptocurrency Tracker

- Developed a cryptocurrency tracker application where user can see available cryptocurrencies and their market price
- **Technologies used:** React.js, REST API Calls, CSS, Bootstrap

Github Popular Repos

- Developed a web application where users can see popular GitHub repos and can be filtered through a selected programming language
- **Technologies used:** React JS, REST API Calls, CSS, Bootstrap

IPL Dashboard

- Implemented IPL Dashboard app where users can list of IPL team, individual team details and respective team matches info
- **Technologies used:** React.js, Routing, REST API Calls, CSS, Bootstrap

Nxt Trendz (ECommerce Clone - Amazon, Flipkart)

- Implemented Nxt Trendz application which is a clone for ECommerce applications like Amazon, Flipkart where users can log in and can see a list of products with search, filters, sort by, etc.
- **Technologies used:** React.js, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

College Projects

[Hostel Management System](#) (Final year Project)

Implemented Hostel Management System which is being used in the college to overcome the problem of Manual Tasks

Technologies used - PHP, HTML, CSS, JS, SQL, AJAX.

Exam Seating Arrangement and Registration

Developed Frontend code for this Project where the functionality was done by my teammate which was done at the PIXEL 2K19 Hackathon.

Technologies Used - HTML, CSS, PHP, JS

Web Scraping Projects

[Fetch Weather](#)

Implemented Fetch a movie which fetches weather from the Google Search engine by sending a request to it

Technologies Used - Python, BeautifulSoup4

[Fetch a Movie](#)

Implemented Fetch a movie which fetches five movies of our inputs that have been provided to the application from IMDB Database.

Technologies Used - Python, BeautifulSoup4

Experience

Tata Consultancy Services Ltd

Assistant Systems Engineer [Sep 2020 - Present]

- Efficiently handled many Operational Tasks which were related to Infrastructure Issues of CRM and also efficiently worked as a Key Person in Solving Bug Issues and Testing Tasks and also played a vital role in client meetings.

Other skills & Achievements

- Awarded Certificate of Appreciation for Successfully Implementing the Software Hostel Management System in our College by JNTUA College of Engineering, Kalikiri.
- Awarded a 38 Inch Ultrawide Curved Dell Monitor for getting the first position in Quiz Competition organized by MONGODB in the year 2020.
- I bagged All India 64th position in the Nationwide Education Scholarship Test in the year 2019.
- Bagged 2nd Position in PIXEL 2k19 Hackathon Organized by JNTU Anantapur.
- Awarded Merit Certificate during my graduation for second position in the academic year 2016-2017.
- Awarded One of the Successful Recipient of the Scholarship from Developer Circles Facebook, Bangalore(Awarded free subscription for DataCamp till the end of my Graduation)
- Proficient in Microsoft Project and MS Office

Other Certifications

- HackerRank - Python Certification
- NASSCOM - Foundations of AI.
- PadhAI- Certification of Successfully Completing the Course A Hands-On Course on Deep Learning.
- Developed a Chatbot and Deployed In Google Assistant with the help of the Sample templates(Mr. facto).
- QwikLabs - Google Cloud Quest Leader for successfully completing the Quest.
